SENIOR Q.C. PROTECTIVE COATINGS INSPECTOR

♦ Surface Preparation - Application - Inspection ♦

Fully experienced in delivering the highest industry standards (British Gas and NACE), in paint, coatings and inspections. Working 80 hours/week, equivalent to a relative 7-8 years experience in surface preparation, application and inspection. Helping both ship owners and operators decrease costs by changing environmental and hazardous new coatings technologies. Up-to-date on toxicological and environmental restrictions, sophisticated coating inspection equipment and international inspection standards. Now looking to make a continued significant contribution for a leading company within a similar appointment.
